Ref. No. 001/OF/10-2026

Date 01-10-2026

OFFICIAL NOTICE

For the Attention of

Government Authorities, Public Organization, and any other national or international offices.

Nexus Services provides an online verification facility for No Objection Certificates (NOCs), Experience Certificates, Recommendation Letters etc. officially issued to its employees. This facility supports document authenticity and helps prevent unauthorized use of the company's name and documents.

All concerned authorities and organizations are requested to verify any NOC presented in the name of Nexus Services through the NOC Verification section of the company's official website before accepting or relying upon it for visa processing, employment verification, or any other official purpose.

Please ensure that the employee information, document reference number, and other relevant details on the submitted NOC match the online verification record. The document's current status should also be checked before proceeding.

If no matching record is found, any discrepancy is identified, or the document is shown as expired or revoked, please contact Nexus Services management using the official contact details published on the company's website for confirmation.

Online verification confirms the NOC's issuance and recorded status only. Each NOC applies solely to the employee, purpose, and validity period specified in the document.

Issued by the Management of
Nexus Services
